WHAT IF I BELIEVE I HAD CONTACT WITH SOMEONE WHO HAS TESTED POSITIVE?

What is a high-risk contact? (All three must apply)
1. You were with someone who had a positive test for COVID-19.
2. You were within 6 ft. of them for more than 15 min. aggregated over a 24 hour period.
3. This contact happened within 48 hours of the person’s positive test or onset of their symptoms.

Was it a high-risk contact?
Y
- Call Student Health at 941-487-4154, Opt. 2 to set up a telehealth appointment and a COVID-19 test. Don’t hang up; there is a long silent hold while you are connected.

N
- No need for isolation/quarantine. Continue to wear a mask, wash your hands frequently, social distance and monitor your symptoms.

Are you a residential student?
Y
- Isolate yourself from roommates and/or family members.
- Coordinate meals so you do not need to leave your designated isolation/quarantine space.

N
- Contact Residence Life who will coordinate moving you to an isolation/quarantine room. You can also choose to go home for your isolation/quarantine period. Meals will be delivered and linens will be provided.

What is a secondary contact?
A friend of a friend, a person who had a contact with someone who had their own high-risk contact with someone who has tested positive for COVID-19.

Secondary contacts (contacts of contacts) do not need to isolate. Usually will not be contacted.

What will happen if a student in my class tests positive for COVID-19?
Anyone who tests positive for COVID-19 will be immediately isolated and will not come to class until cleared. Anyone with a high-risk contact will be asked to isolate and monitor their symptoms for 14 days prior to returning to in-person classes and be cleared by Student Health. This may or may not involve everyone in the class; it will depend on the contact.

Note: Compliance with isolation/quarantine requirements is necessary to remain on campus.

You must remain in your designated isolation/quarantine space for at least 10 days, be symptom-free for 24 hours, and be cleared by Student Health to return to normal activities and the NCF campus.

Please be sure to answer unknown phone calls from area codes 813 or 941 and check voicemail frequently at this time. Student Health Services may be trying to contact you.
