Office of Institutional Research & Assessment

The New College of Florida Fact Book presents current enrollment, admission, financial aid, fiscal resources, and the academic program at the eleventh member institution of the State University System of Florida.

**New College**  
THE HONORS COLLEGE of Florida

## The 2011–2012 Fact Book

contains information and statistics on institutional enrollment, student characteristics, admissions policies, academic offerings, faculty and class size, fiscal resources, personnel, library resources, and physical facilities. The purpose of the book is to provide the New College community with facts about the College. The information can be used by those responsible for public presentations and reporting about New College.

The backbone of the Fact Book follows the format and definitions established by the Common Data Set widely used by college guide publishers for gathering data on undergraduate education. By standardizing the definition of key terms, the Common Data Set helps ensure that data will be comparable across institutions. Additional tables and figures which are not part of Common Data Set are also included to provide more comprehensive information. This year, we added a new section for physical facilities. These items are marked with an asterisk (\*).

This book was prepared by the Office of Institutional Research & Assessment with information contributed by many New College offices. We would like to recognize the Office of Admissions and Financial Aids, the Office of Registrar, Business Office, Library, Public Affairs, Student Affairs, and Special Assistant to the President for their data and assistance.

This year's Fact Book is available online on the New College of Florida website at <http://www.ncf.edu/fact-books> and also at [www.ncf.edu/publications](http://www.ncf.edu/publications). If you would like a printed copy, it can be downloaded from the website and printed for reference. We would like to encourage you to contact us with any questions and feel free to send us your comments and suggestions for improving future editions.

Data Source: New College Student Evaluation System benchmark of dataset December 20, 2011

Note: Class sections are organized courses meeting in a classroom or similar setting at stated time or times. Individual instruction such as tutorials and one-on-one classes, thesis research, music instruction, and tutoring are excluded. Subsections are any subsection of a course, such as a laboratory, recitation, and discussion subsection supplementary in nature and scheduled to meet separately from the lecture [seminar] portion of the course. Same exclusions apply as to class sections.

New College instructors often establish class subsections, which may be discussion groups, project teams and practice/problem sessions to enhance classes. These arrangements between instructors and students are not tracked formally by the Registrar, but generally they are noted in published course descriptions.

Class sizes:

Included in the class size headcount:

- 1) Any student who received an evaluation designation other than "Dropped".
- 2) Any student without an evaluation designation assigned.

The institution may process paperwork to receive the dollars, but it has no role in determining the recipient or the dollar amount awarded.

**Financial aid applicant:** Any applicant who submits **any one of** the institutionally required financial aid applications/forms, such as the FAFSA.

**Indebtedness:** Aggregate dollar amount borrowed through any loan program (federal, state, subsidized, unsubsidized, private, etc.; excluding parent loans) while the student was enrolled at an institution. Student loans co-signed by a parent are assumed to be the responsibility of the student and **should** be included.

**Institutional scholarships and grants:** Endowed scholarships, annual gifts and tuition funded grants for which the institution determines the recipient.

**Financial need:** As determined by your institution using the federal methodology and/or your institution's own standards.

**Need-based aid:** College-funded or college-administered award from institutional, state, federal, or other sources for which a student must have financial need to qualify. This includes both institutional and non-institutional student aid (grants, jobs, and loans).

**Need-based scholarship or grant aid:** Scholarships and grants from institutional, state, federal, or other sources for which a student must have financial need to qualify.

**Need-based self-help aid:** Loans and jobs from institutional, state, federal, or other sources for which a student must demonstrate financial need to qualify.

**Non-need-based scholarship or grant aid:** Scholarships and grants, gifts, or merit-based aid from institutional, state, federal, or other sources (including unrestricted funds or gifts and endowment income) awarded solely on the basis of academic achievement, merit, or any other non-need-based reason. When reporting questions H1 and H2, non-need-based aid that is used to meet need should be counted as need-based aid.

**Note: Suggested order of precedence for counting non-need money as need-based:**

- Non-need institutional grants
- Non-need tuition waivers
- Non-need athletic awards
- Non-need federal grants
- Non-need state grants
- Non-need outside grants
- Non-need student loans
- Non-need parent loans
- Non-need work

**Non-need-based self-help aid:** Loans and jobs from institutional, state, or other sources for which a student need not demonstrate financial need to qualify.

**Work study and employment:** Federal and state work study aid, and any employment packaged by your institution in financial aid awards.

The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

**Full-time instructional faculty:** faculty employed on a full-time basis for instruction (including those with released time for research)

**Part-time instructional faculty:** Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instruction faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

**Minority faculty:** includes faculty who designate themselves as Black, non-Hispanic; American Indian or Alaska Native; Asian, Native Hawaiian or other Pacific Islander, or Hispanic.

**Doctorate:** includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health in any field such as arts, sciences, education, engineering, business, and public administration. **Terminal master’s degree:** a master’s degree that is considered the highest degree in a field: example, M. Arch (in architecture) and MFA (master of fine arts in art or theater).
