- C. Presence in the Community - Up to 20 points

Complete the following questionnaire completely and accurately. It is an essential part of the RFQ to allow the Selection Committee to understand the nature of the firm submitting the offer.

B Standard Federal Form 330 – 70 Points

- Complete the Part II General Qualifications Section.
- The Authorized Representative of the firm should duly sign as required at Section I.

Ability Scoring – 25 Points

The Selection Committee, in allocating points for ability, will look to see the past experience of the firm based upon the nature and success of completed projects. It will consider the nature and caliber of the staff employed on previous projects including their tenure with the firm.

Additionally the Selection Committee will take a view on the extent of services available in house and how the firm proposes to supply services required by this RFQ that are not available in house.

Relevant Experience Scoring – 25 Points

As required by Standard Federal Form 330, provide details and illustrations of relevant experience. No less than three (3) and up to ten (10) projects may be listed that are under construction and substantially complete or completed within the last five (5) years.

The Selection Committee will have particular interest in very small projects but can consider projects ranging in size up to \$5 million that are State funded projects and/or for education and higher education institutions. References to confirm a firm's involvement and performance in these projects will be taken up at the Selection Committee's discretion. *Note - providing details of projects above the notional \$5m limit allows the Selection Committee to determine levels of competency.*

Provision of a single source for continuing civil engineering services is important to the Selection Committee. If in-house resources are not offered for elements of the required service, the Selection Committee will consider how the firm seeking qualification will fulfill the service and will look for evidence that any proposed arrangement with third parties operates efficiently and seamlessly.

Completion of projects on time, to schedule and budget is essential to NCF. Quality coordinated documentation encompassing all physical and cost constraints, scheduling, constructability and construction administration are some of the key supporting elements to a successful project. The Selection Committee will evaluate details of these elements in listed projects as part of the scoring in this section.

The Selection Committee is especially interested in the firm's proven history of achieving both cost efficient designs and aggressive design and construction schedules. Here the committee will consider the firm's experience and ability to utilize innovative methods to reduce the cost of design and construction and reduce the design and construction schedule durations. Statements in this regard may be best located in Section H.

Office Staff, On-Site Staff, Survey Teams Scoring – 20 points

The Selection Committee will consider the quality of the team(s) and individuals the firm has available to support NCF and how they are organized for best advantage.

For firms using third parties to provide the full service required by this RFQ, the Selection Committee will wish to see details of the contractual arrangement between the firms, how they are structured and integrated for efficient management and control. Information in this regard should occur in Section H.

A typical operational (functional and reporting lines) organization chart with all key personnel by name and job title, responsibilities and relationships – communication & reporting is required at Section D. This should include how third party firms are seamlessly integrated where offered as part of the proposal.

Résumés for all staff (including third party personnel) intended to support this award are required at Section E. Statements of Qualification should provide all of the information requested in this section

C. Presence in the Community Scoring – 20 points

The Selection Committee will consider the distances firms may be required to travel based upon the location of the firm's office used by resources to support NCF

Firms will be scored as follows:-

1. Firms located in Manatee or Sarasota Counties – 20 points
2. Firms located in counties adjacent to Sarasota and/or Manatee counties (Pinellas, Hillsborough, Charlotte, Hardee, & DeSoto) – 10 points.
3. All other Florida locations – 0 points

Discussion and Interview

The top ranked firms from the RFQ response scorecard will be invited to a discussion and interview meeting with the Selection Committee at the day, time and place noted in the public notice. The discussion and interview meeting will allow the Selection Committee to request and/or clarify any additional information from the Statement of Qualifications submitted by shortlisted firms. The discussion and interview meeting will be limited to 30 minutes. The Selection Committee will take 10 minutes for discussion between meetings.
